Act as the leader of your post apocalyptic group of survivors in a tooth-and-nail fight to protect your well springs from a vicious rival tribe.

Radlands is a competitive, dueling card game about identifying fiercely powerful card synergies.

"I am in awe of the simplicity and complexity of Radlands at the same time. The use of event triggering and card abilities are what really sets this duelling card game's tone. The theme and artwork very much set the apocalyptic environment and it draws you into the game."

In CATAN (formerly The Settlers of Catan), players try to be the dominant force on the island of Catan by building settlements, cities, and roads. On each turn dice are rolled to determine what resources the island produces. Players build by spending resources (sheep, wheat, wood, brick and ore) that are depicted by these resource cards; each land type, with the exception of the unproductive desert, produces a specific resource: hills produce brick, forests produce wood, mountains produce ore, fields produce wheat, and pastures produce sheep.

Crown of Ash is a strategic worker placement and area control game for one to four players. Players take on the role of vengeful necromancers, ambitious to rebuild and conquer the kingdom by using loyal minions (workers) to do their bidding!

So overall for me I give Crown of Ash a 6/6 on the D6 scale. The game is phenomenal and without a doubt a game of 2023 in my mind. Need I say any more? TOP SCORES from me, if you don't back it, you'll have extreme FOMO when you see someone else with it! The table presence and impact does a lot for this game, the fact that the board is double sided is incredible.
